CAPABILITIES

Environmental Management

We help agencies **navigate environmental planning and lead effective environmental outreach** for infrastructure projects, tracking stakeholders, maintaining detailed engagement databases, and utilizing proven communication methods.

Our team of experts provides **technical review of documents**, including environmental assessments; biological monitoring and surveys; historical, architectural and cultural monitoring and surveys; and environmental impact analyses.

Core Competencies

- Environmental planning and reporting
- NEPA document review
- Public involvement

Industry Experience

- Infrastructure
- Transportation

Our Approach

Ongoing Communication

We help clients foster continuous dialogue with stakeholders throughout the environmental planning process to enhance collaboration and transparency.

Engagement Planning

We develop customized outreach plans tailored to the specific needs of a project and its stakeholders.

Comprehensive Stakeholder Involvement

We actively seek feedback from federal, state, and local agencies; Tribal governments; non-governmental organizations (NGOs); and the general public.

Data Review

We review environmental reports to ensure projects comply with NEPA guidelines.
